Sie bestehen allesamt aus schlagfesten, wetterfesten (-65°, +85°) und gegenüber von UV – Strahlen beständigen Thermoplast - Harzen (PE) und sind vollständig recyclingfähig.

Prácticos, elegantes y respetuosos del medioambiente, decoran los ambientes exteriores e interiores creando rincones con efectos sugestivos. Todos realizados con resinas termoplásticas (PE) y resistentes a los golpes, a los agentes atmosféricos (-65°, +85°) y a los rayos UV. Además, todos los productos son íntegramente reciclables.

kit led rgb light

Il kit professionale applicabile a tutti i prodotti "Lights" di Khilia collection utilizza la tecnologia a risparmio energetico LED RGB, attraverso la quale è possibile trasformare ogni oggetto in una scultura luminosa e colorata. A seconda dello scenario, del contesto, o della particolare suggestione che si vuole creare, si può scegliere il colore della luce più adatto, o semplicemente lasciare che la lampada trasformi il colore lentamente in sequenza, regalando un coinvolgente spettacolo cromatico.

The professional kit, applicable to all Khilia collection "Lights", uses RGB LED technology to save energy, through which you can turn any object into a glowing colorful sculpture. Depending on the scenario, context, or that particular suggestion to be created, you can choose the most suitable light color, or simply let the lamp turn the color slowly in sequence, giving a fascinating show of color.

kit riserva d'acqua

La collezione Khilia vi propone una soluzione semplice ed intuitiva mettendo a vostra disposizione un pratico kit per dotare i vasi di un'utile riserva d'acqua. Grazie ad una griglia ed all'argilla che rilascia lentamente l'umidità all'interno del vaso, le piante possono ricevere l'acqua necessaria dall'ampio bacino sottostante, diventando autosufficienti per svariati giorni. L'unica cosa di cui vi dovrete preoccupare sarà quella di controllare di tanto in tanto il livello dell'acqua nell'indicatore.

The Khilia collection offers a simple and intuitive method by providing an easy-to-use kit for fitting pots with a very practical water reserve. The grid and clay slowly release moisture into the pot so the plants receive an adequate amount of water from the large container underneath, which makes the pot self-sufficient for several days. The only thing you have to remember is to check the water level indicator every once in a while.

Die Khilia kollektion bietet hierfür eine einfache Lösung für Sie in Form eines praktischen Kits für eine Wasserbevorratung. Dank eines Einsatzes und eines speziellen Wasserstandsanzeigers/Einfüllstutzens, der nach und nach die Feuchtigkeit in das Gefäß abgibt, können sich die Pflanzen über mehrere Tage aus dem Reservoir bedienen. Sie müssen lediglich von Zeit zu Zeit den Wasserstandanzeiger kontrollieren.

Gracias a una rejilla y una arcilla que proporciona lentamente la humedad en el interior de la maceta, la planta puede recibir el agua necesaria del depósito, abasteciéndose durante varios días. La única cosa que debe preocuparle será la de controlar de vez en cuando el nivel del agua en el indicador.

Place the plant with its original container inside the Khilia pot. It replaces the saucer and acts as a water reserve.

Falls der Topf im Freien verwendet werden soll, sollten Sie, soweit vorgesehen, innen an der gekennzeichneten Stelle ein Abflussloch bohren und den Schraubdeckel entfernen, soweit ein solcher. Bei Regen kann überschüssiges Wasser durch diese Löcher abfließen. Stellen Sie die Pflanze mit ihrem ursprünglichen Pflanztopf direkt in den Khilia Pflanzkübel: Auf diese Weise dient der Topf als Untersetzer und Wasserreservoir.

Si el macetero se coloca en el exterior, perforar internamente en el punto indicado previsto y quitar el tapón roscado desde el fondo, si lo hubier. 1. Per dare una maggiore stabilità al vaso, si consiglia di togliere il tappo filettato dal fondo del vaso e riempire l'interno con sabbia oppure ghiaio.

6. Tutti i vasi light Outdoor di Khilia collection sono dotati di fori di drenaggio, all'interno e sul fondo del vaso, per favorire la fuoriuscita dell'acqua in eccesso. Nel caso si volesse introdurre una pianta ornamentale, si consiglia di non mettere la terra direttamente all'interno del vaso, ma posizionare un sottovaso e un vaso di contenimento per evitare ostruzioni ai fori di drenaggio e mantenere pulito l'interno del vaso.

The entire Outdoor light pots range from the Khilia collection have drain holes, inside and on the base, to allow excess water to drain away.
To avoid blocking the drainage holes and to keep the pot clean, we recommend against putting the planting medium or the plant directly in the pot; it is preferable to use the original container and place it with a saucer of suitable size in the Khilia collection pot.

Alle beleuchteten Pflanzgefäße für den Outdoor-Bereich der Khilia collection sind mit Abflusslöchern im Innern und am Boden des Topfes versehen, um ein Abfließen von überschüssigem Wasser zu ermöglichen. Um Verstopfungen an den Abflusslöchern zu vermeiden und den Pflanzkübel sauber zu halten, wird empfohlen, die Erde oder die Pflanze nicht direkt in den Topf zu geben, sondern einen separaten Topf geeigneter Abmessung, sowie einen Untersetzer in den Pflanzkübel der Khilia collection hinein zu stellen.

La parte interna y el fondo de todas las macetas Light Outdoor de la Colección Khilia disponen de agujeros de drenaje para favorecer la salida del agua en exceso. Para evitar que los agujeros de drenaje se obstruyan y para mantener la maceta limpia, se aconseja no poner tierra ni colocar la planta directamente dentro de la maceta, sino colocar un plato o el recipiente original de la planta cuyas dimensiones sean adecuadas a la maceta de la Colección Khilia.

Tous les pots lumineux Outdoor de Khilia collection sont équipés d'orifices de drainage, à l'intérieur et sur le fond, pour favoriser l'écoulement de l'eau en excès. Pour éviter que les orifices de drainage ne se bouchent et garder le pot propre, il est conseillé de ne pas mettre la terre ou la plante directement dans le pot, mais de mettre un pot et un dessous de pot aux dimensions adéquates dans le pot Khilia collection.
